

ACH Payment Integration for Macola

AttivoERP Payment Integration for Macola enables secure, efficient ACH and credit card processing, minimizing manual data entry for accounting teams, saving time and improving accuracy.

Customers benefit from a streamlined, user-friendly payment experience, making the shift from paper checks to online payments simple and secure.

Our team combines deep Macola expertise with world-class payment solutions to deliver an easy-to-use system that saves time, reduces costs, and ensures a secure environment for customer transactions.

FEATURES

True ACH Integration

- Payments may be made via ACH, resulting in lower processing costs.

Recurring Billing

- Only active for processing transactions via our interface.
- Streamlines the payment to invoice matching payment process.

VOIDS and Refunds

- Handles voids and refunds via the web interface.

Integration to Macola

- Shows list of invoices from Macola for integrated payment matching.
- Allows selection of multiple invoices of partial payments to apply to a customer payment.

Invoice Payment Links

- Allows you to send an email link to customers for payment via secure payment portal.
