

Tipalti ERP Integration

Tipalti offers different ERP integration methods to accommodate the needs of your ERP and accounting system, helping you complete the last mile of AP automation.

About AttivoERP

AttivoERP has been a leading business process firm and ERP software value-added reseller for the past 30 years. Their passion is enabling growth and profitability of small to mid-sized manufacturing, distribution, and eCommerce businesses by replacing outdated and manual systems with efficient, automated processes supported within a single, scalable ERP system.

About Tipalti

Tipalti delivers end-to-end payables solutions, built to handle the evolving needs of your business—with a focus on scale, efficiency, spend control, and visibility. Tipalti will help you to streamline purchase requests, approvals, vendor selection, PO creation with real-time budget visibility.

An invisible partnership

AttivoERP has partnered with Tipalti to develop a comprehensive integration of Tipalti's AP automation tool into your ERP system.

Instant AP automation

Tipalti keeps track of every part of the AP process, helping your business save time to focus on what matters most.

Benefits for businesses

With the elimination of check fraud and quick automation abilities, Tipalti keeps your information safe and secure, all in one place.
