

2026 Attivo Cloud Updates - Here's What's New & What's Coming

Included with Your Attivo.Cloud Subscription

Throughout 2026, we're rolling out platform enhancements to improve the performance, security, and reliability of your system's environment, at no additional cost.

✓ Already Completed

1. SQL SERVER REPORTING SERVICES (SSRS) 2022

All Attivo.Cloud customers have been upgraded to **SSRS 2022 at no additional cost.**

Benefits include:

- Improved report processing and performance
- Enhanced security and platform stability
- Microsoft's latest and final major SSRS release before the transition to Power BI

2. IMPROVED SQL DATABASE PERFORMANCE

A new nightly SQL maintenance process now **automatically updates database statistics** after backups complete.

Benefits include:

- Better SQL execution plans
- Improved performance as new data is added daily
- Faster database responsiveness between scheduled index maintenance

Coming in 2026

1. SQL SERVER 2025 UPGRADES

Eligible customers will receive a **complimentary upgrade to SQL Server 2025.**

Eligibility

- Progression environments within three supported builds of the latest release
- Some customers have already been upgraded during scheduled after-hours maintenance

Customers running older versions may still participate after first upgrading to a supported release.

2. WINDOWS SERVER 2025

Supported Attivo.Cloud environments that are currently running **Windows Server 2019** will be upgraded to **Windows Server 2025.**

Benefits include:

- Improved security
- Better performance
- Longer Microsoft support lifecycle

3. SHORTER WEEKLY MAINTENANCE WINDOWS

Most customers will see their **standard weekly maintenance** window reduced from 3 hours to approximately **1 hour**.

Benefits include:

- Two additional hours of weekend system availability
- Maintenance windows aligned to your primary business time zone
- Individual scheduling notifications prior to implementation

Three-hour maintenance windows will continue to be used for major infrastructure upgrades when necessary.

Included with Attivo.Cloud

Your Attivo.Cloud subscription is designed to keep your environment current without the complexity of managing infrastructure yourself.

With Attivo.Cloud you receive:

Continuous
platform
improvements

Infrastructure
modernization

Security
enhancements

Performance
optimization

Expert cloud
management
